Sarver
Nursery Co.

Northwest Highway and Argon Road
5031 Bryan Street
Dallas, Texas

OUR SALES LOCATIONS are both easily accessible.

In East Dallas, our city sales location is at the corner of Bryan Street and Garrett—12 minutes drive from down-town. The Belmont Street car goes right by. Our growing fields and other office are on Northwest Highway, toward Grapevine; just 1½ miles west of the Circle meeting spot of Denton Highway, Northwest, Hines Blvd., and Maple Ave. (See Map on back page), 3 miles west of Bachman's Lake.

OUR PRICES are as low as good plants can be grown and

skillfully handled. We grow plants in sizes to suit all kinds of landscape work—from small inexpensive plants, to large showy specimen sizes. Due to abnormal market conditions now prevailing, it is impossible to guarantee prices for any definite time. We must therefore, reserve the right to change our published prices without notice. We suggest you order as soon as possible. All sales are subject to crop failure or conditions beyond our control.

OUR POLICY is to furnish plants of the best quality,

handled in the most careful manner, as learned through 28 years of experience with the soil and climate of this section.

OUR SERVICE includes the services of a qualified land-

scape designer, who will gladly, without cost, give estimates and plans for the development and planting of your property, be it a cottage, fine house or estate.

OUR RESPONSIBILITY is to send out healthy stock,

true to name, free from disease. If we fail in this, we stand ready, on proper proof, within 60 days of date of invoice to replace stock without cost, at the proper season. We cannot hold ourselves liable for an amount greater than the original purchase price. **WE DO NOT GUARANTEE PLANTS TO GROW**, since we cannot be responsible for improper handling, improper planting, or cultivation, drought, freezes, bad soil insects, rabbits, diseases or other unfavorable conditions that prevent plants from growing.

OUR TERMS are cash when customer receives plants,

or with order when it is mailed in; except where terms have been previously arranged. We shall be glad to go over your planting needs, and make arrangements that will be helpful when needed.

Roses

Guaranteed to Bloom This Season

FINE PLANTS, HANDLED WITH SKILL AND CARE

Heavy Grade, each.....\$.35 Per Doz.....\$3.50

Rose plants thrive best in a well-prepared bed of sandy loam, mixed with thoroughly rotten manure, bone-meal or sheep manure. Good drainage and full sunshine, away from tree or hedge roots are essentials.

RED VARIETIES

AMERICAN BEAUTY—Cerise red—The old favorite. Fragrant.

AMI QUINARD—Very dark velvety red, almost black. Semi-double.

CHARLES K. DOUGLAS—Carmine-scarlet. A profuse bloomer. Moderate grower.

E. G. HILL—Very free flowering. Deep rich scarlet. Good sized flowers.

ETOILE De HOLLAND—Magnificent velvety red, large, perfect buds on long stems.

FRANCIS SCOTT KEY—Massive blooms of light crimson. About 95 petals.

GRENOBLE—Brilliant red blooms of large size, and long stems.

LORD CHARLEMONT—Vivid Crimson. Very fragrant and free blooming.

ROUGE MALLERIN—Large deep red flowers with pleasing fragrance.

RED RADIANCE—Freest blooming of all. Good rose red. Tulip shaped buds.

SENSATION—Dark red, medium sized, fragrant flowers.

PINK VARIETIES

BETTY UPRICHARD—Carmine-rose on outside of petals, shell pink inside.

BRIARCLIFF—Deep pink, long pointed buds; vigorous and free blooming.

COLUMBIA—Lively pink, heavy buds, on almost thornless, vigorous bush.

DAME EDITH HELEN—Superbly large clear pink flowers on long stems.

EDITH NELLIE PERKINS—Two-tone pink with touch of yellow at base. Fragrant.

EDITOR McFARLAND—Considered one of the best clear pinks. Fine shaped flowers.

LOS ANGELES—Exquisite flowers of salmon-pink with yellow glow. Fragrant.

MARGARET McGREDY—Brilliant vermillion-buds opening to carmine pink.

MARY, Countess of Ilchester—Clear pink, very double, hardy and free flowering.

MRS. CHARLES BELL—Shell pink Radiance, with all the fine 'Radiance' qualities.

MRS. LOVELL SWISHER—Peach and apricot tones. Lovely long buds. Good for cutting.

PAUL NEYRON—Old-fashioned thornless rose of immense dark pink fragrant blooms.

PINK RADIANCE—The 'must' rose for every garden. Deep pink with lighter tints on the reverse side of petals.

PRISCILLA—Bright rose pink. An excellent rose for cutting.

SOUVENIR de GEORGE PERNET—Very large, fragrant flowers of cerise pink tones.

WILLOMERE—Coral pink buds opening to shrimp pink. Rather thorny.

YELLOW VARIETIES

GOLDEN DAWN—Large pointed buds of bright yellow tinged with coral.

GOLDEN OPHELIA—Very free flowering, golden yellow, dainty sized buds.

JULIEN POTIN—Primrose yellow, long pointed buds. Very fragrant.

LADY HILLINGDON—One of the hardiest yellow roses, exceptionally free flowering. Flowers not full but of lovely saffron yellow.

LUXEBURG—Rich golden yellow, with orange shadings. An old favorite. Large buds.

MRS. PIERRE S. DUPONT—An excellent free blooming rich yellow, making a good bush.

ROSLYN—Nice pointed buds of golden yellow, with trace of orange. Thorny. Strong.

SOEUR THERESE—Chrome yellow, heavily marked with carmine. Sweetbriar fragrance.

SUNBURST—Old favorite because of its wonderful rich orange yellow tones.

WHITE VARIETIES

CALEDONIA—Of purest white. Large fine form.

FRAU KARL DRUSCHKI—White American Beauty, is the more popular name for this rose.

KAISERIN AUGUSTA VICTORIA—Well formed creamy white, fragrant buds. A free blooming old favorite. Tinge of lemon at center.

WHITE AMERICAN BEAUTY—The loveliest pure white blooms of enormous size and rich fragrance. Makes a very large bush, or climber.

MULTICOLORED VARIETIES

AUTUMN—Mingled shades of burnt orange and red tones. Lovely shaped buds.

CONDESSA de SASTAGO—One of the richest colorings in golden yellow; variegated red and copper. Very fragrant.

HEINRICH GAEDE—Orange and red tones in a delicious combination. Well-formed buds. Fragrant.

MRS. JOSEPH PERRAUD—Rich reds, Pinks and yellow tones.

PRESIDENT HERBERT HOOVER—A 'must' in every garden. Large, free-blooming flowers of cerise-pink, carmine and yellow. Fragrant.

REV. F. PAGE ROBERTS—Great copper-red and yellow buds of fine form and fragrance.

TALISMAN—No rose garden complete without this rose coral red with yellow. Buds of perfect form, opening to a rather single flower.

POLYANTHA TYPE ROSE

LARGE FLOWERING OR FLORIBUNDA TYPE—Suitable for hedges or bedding. Very free flowering.

D. T. POULSEN—Bright blood red.

ELSE POULSEN—Very popular rose pink, with leathery green foliage.

KIRSTEN POULSEN—Single bright scarlet. Good companion for Else Poulsen. Tall growing.

SNOW FLAKE—Large glistening white.

SMALL OR DWARF POLYANTHA TYPE

CHATILLON—Dainty bright rose pink, becoming lighter as blossoms fade.

EBLOUISSANT—Deep rich red, petals having wavy edges.

GLORIA MUNDI—Salmon scarlet. vigorous.

GOLDEN SALMON—Light salmon to orange

IDEAL—Dark red. Very popular.

MISS EDITH CAVELL—Deep red crimson.

PERLE d'OR—Salmon, orange, pink in bud. Pale pink when open.

TRIOMPHE d'ORLEANAIS—Cherry red, large showy heads.

SPRING BLOOMING VARIETIES

AMERICAN BEAUTY—Large, fragrant blooms of deep pink in May. Exceedingly showy.

MME. GREGOIRE STAECHELIN—Long pointed buds of crimson, opening to bright pink.

PAUL'S SCARLET—The favorite! Vivid scarlet blooms in clusters, making a flaming show of color in May. Scattered blooms again in fall.

SILVER MOON—Beautiful rich foliage, almost evergreen; semi-double, pure white.

MONTHLY BLOOMING VARIETIES

BLAZE—"Patented," Everblooming Paul's Scarlet. Each\$1.00

AMI QUINARD—Very fine crimson flowers on long stems. Fragrant.

CALEDONIA—Large, pure white, individual buds

CECILE BRUNNER—Climbing form of the little pink "Sweetheart" rose. In clusters.

COLUMBIA—Bright pink, fragrant flowers.

DAINTY BESS—The same charming single pink flowers, free flowering in climbing form.

ETOILE de HOLLAND—Unsurpassed for free flowering qualities. Large semi-double bright red flowers on long stems. Good foliage.

KAISERIN A. VICTORIA—Unexcelled monthly blooming white. Nicely formed buds.

LUXEMBURG—Excellent deep yellow buds on good stems. Blooms more freely than bush.

PIERRE S. DUPONT—Rich deep yellow. Lovely buds.

PRESIDENT HOOVER—Same lovely coral, pink and yellow flowers of the bush type.

RADIANCE—Pink, strong growing climber.

RAMONA—Cherokee—See under: "Shrub roses."

RED RADIANCE—The same vigorous characteristic as in the bush. Rose red.

SOUVENIR de CLAUDIUS DENOYLE—Deep velvet red individual buds on long stiff stems. Free blooming after becoming well established.

SUNBURST—Rich orange-yellow blooms on a stronger growing plant than in the bush.

TALISMAN—A wonderful climber of great vigor and free blooming qualities. Same semi-double, coral-red and yellow toned flowers as in bush.

SINGLE ROSES—BUSH TYPE

Lovely for cutting, for show in the rose garden, for use in front of shrubs.

Each\$.50

CHEROKEE—See Shrub Roses.

DAINTY BESS—Delicate pink, with odd, square-shaped flowers.

IRISH ELEGANCE—Shades of apricot and bronzy yellow.

MINIATURE ROSES

Each\$.50

Charming for buttonhole or corsage use.

CECILE BRUNNER—Sweetheart rose. Pink, paling to creamy white.

TIP-TOP or BABY DOLL—Perfect little buds of rose pink, with yellow at the base. Very fine.

ROSA ROULETTI—Tiniest rose grown. Reddish buds smaller than a finger nail. Free blooming.

SHRUB ROSES

Should be planted where they can grow undisturbed for years, making large showy shrubs.

Each50, .75 and 1.00

AUSTRIAN COPPER—Copper yellow & orange.

CHEROKEE—Ramona, red single. May be used as vine, shrub or Rambler.

GOLDEN MOSS—Very fragrant, and full.

LADY BANKSIA—Great sprays of yellow tiny rosette-like flowers. Shrub or climber.

RUBIGINOSA—Pretty single flowers in spring; attractive red seed hips in autumn.

SETIGERA—Prairie Rose. Extremely hardy, graceful grower. Single pink flowers.

TREE ROSES

B. and B., Each\$3.50

Selection of colors—in good standard varieties, that are vigorous and free blooming.

B. B.\$2.50

Gallon cans75

YAUPON—See *Ilex Vomitoria*

YEDDO HAWTHORN—See *Raphiolepis*.

YEW—See *Podocarpus*.

Azaleas and Camellias

AZALEAS—REQUIREMENTS:—Acid Soil. Equal parts of peat or leaf mold, and sandy loam. Lime soil is harmful. So it must be removed, and the acid soil filled in around plant.

Use a 4 inch pot of Aluminum Sulphate to each wheel-barrow full of special acid soil.

Azalea root system is very shallow, and dries out very fast. Use plenty of water to keep roots moist at all times.

To have satisfactory results with Azaleas, the gardener must expect to make these extra soil preparations. Ask for fuller instructions.

However, good drainage is essential; so azalea beds should have plenty of sand for the surplus water to drain off. Shade from afternoon sun.

AMOENA—One of the hardiest, compact growers; up to 3 feet. Small leaves and small size rosy-purple, hose-in-hose flowers.

KAEMPFER—This fine evergreen Azalea makes a fine flowering shrub, with its large size, single blossoms in late spring, and lasting a long time. The flowers come in shades of deep pink, rose, scarlet and red. One of the very best Azaleas for this section.

ALTA CLARENSIS—Large, glossy deep green foliage, with vivid rich yellow flowers of large size, and beautiful form. Plant in partial shade.

FLAME—So bright and red, the plant appears to be on fire. Medium size flowers in April. Specimen plants of the above form \$3.50 to \$7.50

DWARF GROWING VARIETIES

BENEGIRI—Similar to the ever popular Hinodegiri, but with more salmon coloring.

CHRISTMAS CHEER—Orange scarlet, very free flowering and very hardy. Small leaves.

CORAL BELLS—Compact grower; glossy leaves; lovely pink bell-shaped flowers, of good size, blooming over a long season in spring.

HINODEGIRI—Great favorite. Its fiery red flowers, literally smothering the entire plant in March and early April. Slow, compact growth.

HINAMAYO—One of loveliest of all Azaleas. Soft rich pink.

8 to 10 inch tall, each 1.00

SALMON QUEEN—Good clear salmon flowers; free flowering, hose-in-hose type.

SNOW—Pure white, double flowers.

6 to 8 inch tall, each \$.75

8 to 10 inch tall, each 1.00

12 to 15 inch tall, each 2.00

15 to 18 inch tall 2.50

18 inch and over, each 3.50

(Ask for prices on larger plants and other varieties.)

CAMELLIA JAPONICA

Requirements—Prefers good garden soil, somewhat on the acid side. Made with equal parts of leafmold, peat moss or sandy loam. Plant in half shady location.

Plant is entirely hardy. But protection should be provided, during cold spells for the buds and flowers.

Every winter give a liberal application of well-rotted cow manure or cotton seed meal; and a mulch of well-rotted leaves. Frequent syringing of the leaves during hot dry weather desirable. Varieties in Pink, White, Red and Variegated.

Ask for prices and named varieties.

Fall Blooming Variety—Camellia Sasanqua. Flowers about same size as spring blooming Camellias, but a little more single. Leaves smaller and plant more rapid growing. Colors pink, white and variegated. This variety has much merit; is exceedingly prolific in blooming.

Does unusually well in this section; and has a charm all its own. We have an unusually large assortment of sizes from \$1.00 sizes, up to large specimens.

Flowering Shrubs

ACACIA FARNESIANA—Huisache. Ferny foliage; yellow ball-shape fragrant flowers in spring.
 In gallon cans\$1.00
 Large B. B. Plants.....\$3.50 and 5.00

- NARCISSI**—Large flowering, trumpet Daffodils.
KING ALFRED—Dozen\$1.00 and \$1.50
EMPEROR—Dozen\$1.00 and \$1.50
MIXED VARIETIES—Dozen\$1.00
Small flowers, white and yellow trumpets—Jonquils. Dozen\$.75
- NERINE**—See Red Spider Lily.
- OXALIS**—Dwarf, everblooming pink, ea..... 10c and 25c
Large flowering varieties, spring and fall blooming. Leaves like large shamrocks, pink and orchid. Each15c
- PEONIES**—See Hardy Perennials.
- QUEEN'S WREATH**—See Vine List.
- ROMAN HYACINTHS**—Small spike of Blue, early spring blooming.\$.75
- RAIN LILIES**75
- RANUNCULUS**—Jumbo size. Plant in Sept. Doz.....75c
- RED SPIDER LILY**—Blooms on 15 inch stems in Oct., foliage green all winter, disappearing through summer months. Doz.\$1.00 and 2.00
- SPARAXIAS**—Mixed colors, spring blooming. 12 in tall.
Dozen, top size95c
- TULIPS**—Grown in Pacific Northwest and Michigan.
Top size, per 100.....\$10.00
No. 1 size per 100..... 7.50
Per dozen90
- PINK CLARA BUTT**
YELLOW INGLESOMB
ORCHID—Rev. Eubanks.
RED—Ferncomb Sanders, scarlet.
ALLARD PEARSON—Maroon.
WHITE—Miss Blanche.
Note—We carry other bulbs, not listed, ask for prices and varieties.

Shade Trees

We carry the following trees, but cannot list sizes and prices, since there is a constant fluctation in the sizes, available at any one time.

CHINABERRY—(Umbrella type)

ELM—AMERICAN

CHINESE

CEDAR

HACKBERRY

MAGNOLIA

OAK—LIVE OAK

RED OAK

PIN OAK

PECAN

POPLAR—Lombardy.

SYCAMORE

WHITE LOCUST

ESPALIER TRAINED TREES—Pear and Quince.

BALD CYPRESS—Feathery foliage.

BLACK WALNUT

CHINESE SCHOLAR TREE

CORK TREE—(Phello dendron)

DOGWOOD—(See flowering Shrub list for varieties)

EVE'S NECKLACE—(Sophora Affinis)

FLOWERING APRICOT

FLOWERING CHERRY

FLOWERING CRABAPPLE

FLOWERING PLUM

FLOWERING PEACH—Upright and weeping varieties

FLOWERING PEAR

GOLDEN CHAIN TREE

MAGNOLIAS—Evergreen and Deciduous

MIMOSA—(Silk Tree)

PERSIMMON

RED HAW and BLACK HAW

PURPLE LEAF PLUM

REDLEAF MAPLE

ROSE ACACIA—Pink

REDBUD

SWEET GUM

SPANISH OAK

TANGO TREE—(Daubentonia) or Scarlet Wistaria Tree.

TULIP TREE

WHITE LOCUST

VITEX

WEeping MULBERRY

WILLOW, Flowering

WEeping WILLOW

Grasses and Yuccas

ST. AUGUSTINE GRASS—The unexcelled lawn for shady locations.

It will grow in shade where Bermuda will not grow.

It will grow out in full sun equally as well, if not better.

It is a rich, emerald green, that is most refreshing.

It will stand temperatures nearly to zero, without protection.

It stays green until December and greens up again in March.

Our sod is thick, well-fertilized, weed free, grown in our own nursery. Cut fresh on order.

Care: Plenty of water, and a yearly fertilizing is helpful. One square yard will cover, roughly, 10 sq. yds. of area.

Price: 1 square yard, solid sod.....\$2.00

BAMBUSA—Bamboo—Light green, airy foliage. Give plenty of water; in sun or partial shade \$1.00

ARUNDO DONAX—Giant Reed or Ribbon Grass. New foliage in early spring, silvery striped. Height up to 8 feet. Plumy seed heads. Fine in backgrounds, or to hold embankments.

Clumps50c 75c and \$1.00

CORTADERIA ARGENTEA—Pampas Grass. Fluffy white plumes in late summer. Grass-like foliage, like a falling fountain. Drought resistant.

Price.....\$1.00, 1.50, 2.00, 3.50

DASYLIRION TEXANUM—Sotol. Narrow spiny evergreen blades, symetrically arranged 1.00, 2.00

FOUNTAIN GRASS—See Pennisetum.

LIRIOPE-SPICATA—Lily Grass. Fine little evergreen border for shady or sunny places alike. Narrow grass-like leaves. Blue flower spikes up to 8 inches in mid-summer.....\$.25, .50

PAMPAS GRASS—See Cortaderia.

PENNISETUM RUPPELI — Fountain Grass. Dwarf growing, plumy heads of creamy-white.

OPHIOPOGAN—Striped Lily Grass50c

RED YUCCA—See Yucca.

SOTOL—See Daisylirion.

YUCCA HESPEROLE—Red Yucca. Excellent slow-growing, evergreen, throwing up tall arching, coral colored flower stalks from spring to frost. B. B.75c, \$1.00, \$1.50 and \$2.00

FILAMENTOSA—Adams Needle. Best known. Broad, sword-like leaves; flower stalks rising from the center with creamy bell-shape flowers.

RADIOA AUREA—Gold margined leaves. Very handsome. Fine for urns. Same Creamy bell-like flower stalks.

Treculenna—Spanish Dagger. Grows on a large stout trunk, with branching heads of stiff, dark green cruelly sharp points. Creamy flower stalks \$.50, 1.50 and 3.50

ZOYZIA—New Velvet Grass. Ask for prices. Grows in sun or shade.

Vines

- AMPELOPSIS ELEGANS**—Porcelain Vine—Rich reddish foliage like the Virginia Creeper but much dainter. Blue berries. B. B. \$2.50
- QUINQUEFOLIA**—Virginia Creeper. Five-lobed leaves. Very hardy.
Out of 5 inch pots50
- TRICUSPIDATA**—Boston Ivy. Dainty foliage; self-clinging.
Out of 4 inch pots50
- ANTIGONON LEPTOPUS**—Queen's Wreath or Coral Vine. Rose pink flowers in later summer. Heart shaped leaves. Give winter protection. Dainty.
2 yr. bulbous roots \$.35
3 yr. bulbous roots50
4 yr. bulbous roots75
- ARISTOLOCHIA TOMENTOSA**—Dutchman's Pipe. Grey-green, heart-shaped leaves. Odd-shaped brownish-yellow flowers in late summer.
4 yr. roots 1.00
- SIPHO**—Variety. Large calico flower.
Grafted, blooming size \$2.50
- BIGNONIA RADICANS**—Trumpet Vine. Vigorous growing; Orange-red trumpet shaped flowers in summer. Dought-resisting.
2 yr. old \$.50
3 yr. old 1.00
Variety Mme. Galen, New. Rich, large reddish orange flowers \$1.50
- BITTERSWEET**:—See *Celastrus*.
- BOSTON IVY**—See *Ampelopsis Triscupidata*.
- CAROLINA JASMINE**—See *Gelsemium*.
- CELASTRUS SCANDENS**—American Bittersweet. Sprays of orange berries in fall.
Bare root plant, 3 yr. \$.75
Field plants B. B. 1.50
- CLEMATIS**—Small flowering type.
CRISPA—Dainty purple urn-shaped blossoms.
3 yr., gallon cans \$1.00
- PANICULATA**—Virgin's Bower. Masses of fragrant white star-shaped flowers. Grows in sun or partial shade. Very hardy.
2 yr. old \$.50 and .75
- TEXENSIS**—Red with yellow throat. Sparse foliage. Gallon cans \$1.00
- LARGE FLOWERING TYPE**. Best grown in partial shade. Plant deeply. Variety—Jackmanii, showy single purple. Mme. Edouard Andre single red. Ville de Yyon, blue.
2 yr. old, gal. can \$1.00
- ELEAGNUS PUNGENS**—Hardy broad-leaved evergreen; can be made to climb.
Gallon cans \$1.00
- ENGLISH IVY**—See *Hedera*.

EUNOYMUS RADICANS—Bronzeleaf. Evergreen, with winter colorings. Good to cover low walls or ground covering. Self-clinging.\$.50 & .75
VEGETUS—Handsome large evergreen foliage of light green. Selfclinging; berries in winter. Very hardy. Gallons\$1.00

FLEECE VINE—See "Polygonum."

GELSEMIUM SEMPERVIRENS — Carolina Jasmine. Hardy evergreen with deep yellow fragrant flowers in early spring. Sun or shade. Plant with Peat Moss and sandy loam soil.
 3 and 4 in. pots50 and .75
 B. B. field plants.....\$1.50 and 2.50

GRAPE VINES—See under "Fruits."

HEDERA HELIX—English Ivy. Deep evergreen. Best in shade. Self-clinging..... .15, .25, .50

CONGOLOMERATE IVY—Tiny twisted leaves. Good ground cover\$.25

HAHN'S BRANCHING IVY. Dainty leaves, compact, slow growing......25 and .50

HONEYSUCKLE—See "Lonicera."

HYDRANGEA PETIOLARIS — Climbing Hydrangea. showy white flowers. Ordered on request.....\$1.50

IPOMEA LEARII—Perennial Morning Glory. Deep blue flowers until frost. Dense foliage. Needs winter protection.50 and .75

JASMINE NUDIFLORUM—Can be trained as vine.

PRIMULINUM—Can be trained as rambling vine

OFFICINALIS—Fragrant white flowers.

RYNCHOSPERMUM—Star Jasmine; Old Confederate Jasmine. Beautiful evergreen leaves; white star-like flowers in spring\$.50, .75, 1.00

KUDZU—See Pueraria.

LONICERA—Honeysuckle Family. Hardy; easily grown.

HALLIANA Hall's Japan. Fragrant white and yellow flowers. Evergreen. Sun or shade.

HECKROTTII or **FLAME VINE**—Blooms almost continuously. Rose flowers with pink throat.

SEMPERVIRENS—Woodbine or Scarlet Trumpet Vine. Coral red flowers over a four month period in spring and summer. Evergreen.

2 yr.\$.50

3 yr.75

4 yr. 1.00

B. B. field grown heavy.....\$1.50 and \$2.50

MADEIRA or **BASSELLOIDES**. Very fragrant, inconspicuous white racemes in mid-summer.

Bulbous roots35 and .50

MILLETIA JAPONICA—Formosa Wisteria. Reddish-purple wistaria-like racemes in mid-summer.

Gallon cans\$1.00 and 1.50

POLYGONUM AUBERTII—Lace or Fleece Vine. Rampant growing; producing masses of fluffy white flowers all summer. Hardy. Very fine.

3 yr.\$1.00

PUERARIA THUNBERGIANA—Kudzu. Exceedingly Rapid growing. Blue, wistaria-like flowers.

2 yr. bare root..... .25 and .50

Gal. cans75 and 1.00

QUEEN'S WREATH—See "Antigonon."

ROSES—Climbing—See under "Roses."

SENECIO CONFUSIUS—Orange Glow or Japanese Love Vine. Tender, orange-red, daisy-like, flowers in late summer \$.15 and .25

SMILAX LANCEOLATA—Greenbrier. Hardy evergreen, shiny leaves. Best in rich, sandy acid soil.
6 in. pots75 and 1.00

VITIS—(Grape Vine)—See under "Fruit Trees."

WISTERIA—Fast growing, very hardy, much loved.

SINENSIS—Chinese Variety. Flowering in Mar. in showy racemes. Will bloom quite young.

Deep lilac-purple..... .50, .75, \$1.00

B. B. \$1.50 and \$2.50

Light soft pink, blooming size \$1.50 and \$2.00

Glistening white, blooming size \$1.50

TREE FORM—Priced from \$2.50 up to \$5.00 and \$7.50, according to age. All blooming sizes.

SOME GOOD PLANTS TO USE IN SEMI-SHADY LOCATIONS

Of Course, St. Augustine Grass for the shady lawn area.

EVERGREENS

Aucuba—Gold Dust Plant

Azaleas in Variety

Camellia Japonica and Sasanqua

Cleyera Japonica

Cherry Laurel

English Boxwood

Euonymus Kewensis

Radicans

Seiboldii

Gardenia Fortunei

Radicans

Hypericum

Ilex—Holly of all varieties

Laurel—English

Mahonia Aquifolium and Japonicum

Mentor Barberry

Nandina Domestica

Osmanthus—Sweet Olive

Photinia Dentata

Roman Myrtle

Sargent's Barberry

Southern Wax Myrtle

Strawberry Tree—Arbutus Unedo

Viburnum Tinus and odoratissimum

Yaupon—Ilex Vomitoria
